▶ NEWSLETTER\_16

+++ More than 300 international exhibitors +++ WINDFORCE Dinner +++ 6,000 trade fair visitors in 2012 +++  
+++ WINDFORCE Party +++ Over 800 conference participants +++ More than 60 international speakers +++ Excursions

## Issue 16 — November 2013

Dear Ladies and Gentlemen,

Did you go to the EWEA in Frankfurt too? It shows yet again how important trade fairs and conferences are for finding out personally about the latest developments in the industry. The offshore wind sector will have the opportunity to do so again in Bremen in 2014. Preparations for the tenth (!) offshore wind conference are forging ahead. This newsletter brings you more information about the WINDFORCE 2014 and WINDFORCE Baltic Sea events.

We hope you enjoy reading our news and we look forward to meeting you in person again soon.

Your WINDFORCE team

P.S. Do you like our newsletter service? Should your colleagues, business partners and friends also know more about WINDFORCE? We would be more than happy for you to pass on our newsletter to them.

# WINDFORCE 2014 Bremen

## 1. WINDFORCE 2014

### The countdown is on for the call for abstracts

More than 800 international conference participants, 14 theme sessions, two days of concentrated knowledge input on the latest developments and experiences in the offshore wind energy industry: it's a lot, and it will all feature on the 18th and 19th of June 2014 when the tenth WAB offshore conference takes place next to the trade fair. Interested speakers still have time to submit their abstracts by the closing date of 30 November. The preliminary programme for the conference includes new highlights – a breakfast session on Wednesday morning will have turbines as its central theme and a second breakfast session on Thursday morning will discuss floating platforms. Afterwards, each day will be divided into two large thematic periods, each boasting three individual theme sessions held at the same time. These sessions will cover the entire range of issues that are important for the next steps – costs reduction, safety, logistics and grid connection. For a complete overview of the preliminary programme and to see the procedure for submitting an abstract, please go to [www.windforce2014.com](http://www.windforce2014.com).

## 2. WINDFORCE 2014

### AWEA and WINDFORCE join forces

The ink is still drying on a cooperation agreement signed by the American Wind Energy Association (AWEA) and WINDFORCE. Both organisations are moving to step up their cooperation. "For a start, WINDFORCE will introduce itself at the WINDPOWER 2014 conference and exhibition in Las Vegas in May", said Jens Eckhoff, managing director of the Offshore Wind Messe- und Veranstaltungen GmbH and responsible for WINDFORCE, as he explained the collaboration. This will give the American wind energy industry the opportunity to find out more about WAB's own trade fair and conference. In return, AWEA will be present at the Bremen WINDFORCE event in June 2014, thereby offering the German and European wind energy industry the opportunity to introduce itself to the American market. The first offshore wind farms will be installed off the eastern coast of the United States soon.

## 3. WINDFORCE 2014

### Sponsorships

There is still time until 29 November 2013 to submit your sponsorship request. Our sponsorship plan offers a broad variety of larger and smaller packages that target trade fair visitors and conference participants, and in some cases, address just one of these groups in particular. Boasting 800 international conference participants, more than 300 exhibitors from Germany and abroad,

and 6,000 trade visitors, WINDFORCE gathers a concentration of those involved in the offshore wind industry that is nowhere greater. Visit [www.windforce2014.com/sponsoring](http://www.windforce2014.com/sponsoring) to see the sponsorship plan.

#### **4. WINDFORCE Baltic Sea 2014 Programme**

Insight on the current status of Baltic 2, experiences with Fino 2, which strategy Denmark is pursuing, and what happens next with offshore wind energy in Lithuania – these are some of the points on the programme of the two-day WINDFORCE Baltic Sea conference to be held in Gdansk in February 2014. The launch of our new event format in Stockholm was so successful that half of the limited number of seats for participants is already booked. You will find the detailed programme and the registration form at [www.windforcebalticsea.com](http://www.windforcebalticsea.com). We look forward to welcoming you to the second WINDFORCE Baltic Sea conference.
