## Issue 17 — December 2013

Dear Ladies and Gentlemen,

There are just a few days to go before the holiday season begins. With this newsletter, bringing you our latest news on WINDFORCE Baltic Sea and WINDFORCE 2014, our team would like to thank you for your cooperation and wish you and your family happy holidays with plenty of time for relaxing "between the years". In the new year we will be offering you and your business partners and clients several opportunities to meet in person. The first occasion will be in February in Gdansk: Witamy w Gdańsku!

May you enjoy a happy and healthy holiday season and a wonderful New Year!

Your WINDFORCE team

P.S. Do you like our newsletter service? Should your colleagues, business partners and friends also know more about WINDFORCE? We would be more than happy for you to pass on

## 1. WINDFORCE Baltic Sea Join us for an intense meeting!

As the 17th wind farm to supply renewable power from the Baltic Sea, Baltic 2 has recently put a lot into motion. To find out more about plans for the future in countries around the Baltic, and hear about the experience already gained with installed wind farms, you are welcome to attend the second WINDFORCE Baltic Sea conference for an intense one-and-a-half day meeting. International representatives of the industry will meet on 5 and 6 February 2014 to exchange news and views on current developments in the Baltic Sea. The conference programme provides extensive insight into questions regarding financing, logistics and grid connection. For more detailed information on the programme, divided into eight theme sessions, please visit [www.windforcebalticsea.com](http://www.windforcebalticsea.com). Early registration is worth it as there are only a limited number of seats available.

## 2. WINDFORCE 2014 – The Trade Fair

With CHS Container and the Baltic Taucherei- und Bergungs GmbH diving company as new exhibitors at WINDFORCE 2014, the last spaces in Hall 5 are now booked. OLC has also confirmed its participation and will present its exhibition at the entrance to WINDFORCE 2014. Industrial climbers Steady Climbing, headquartered in Bremen, will be there for the first time, and NDE Offshore from Sweden and cwind from Britain will also be introducing themselves to an international public. Germany's most important trade fair for the offshore industry will be held in Bremen from 17 to 19 June 2014. More than 130 exhibitors have already booked spaces. Because there is ongoing demand for booths and exhibition space, a second hall is now available for booking. To access the current floor plan and the registration form, please go to [www.windforce2014.com](http://www.windforce2014.com)

## 3. WINDFORCE 2014 – The Conference

This will be the tenth offshore conference held by Wind Energy Agency WAB. The recently closed "Call for Abstracts", which attracted more than a hundred proposals for lectures and presentations, highlighted the strength of the WINDFORCE conference's international reputation. From this wide choice, WAB's Executive Board is selecting the most exciting lectures/presentations to feature at the conference in Bremen in June, where some 800 international participants are expected. The

With the kind support of:

The logo for ALSTOM, with "ALSTOM" in blue and a red circle around the "O".

The logo for General Cable, featuring a green stylized cable icon and the text "General Cable" in black.

## 4. WINDFORCE 2014 – The Sponsorships

Would your business like to effectively show itself as a key player in the offshore industry? Are you looking for the right way to reach the clientele you want with your marketing? Both WINDFORCE Baltic Sea and WINDFORCE 2014 offer larger and smaller sponsorship opportunities. The first sponsorship packages are already gone, but you still can use these events, especially the industry's most important trade fair and conference, to make your company's name familiar to potential clients and business partners. We are happy to tell you more about our range of sponsorship packages.
